

CONSTRUCTION MASONRY

Construction Masonry students learn the manipulative skills and related work associated with the field of masonry. Upon successful completion of the program, students have the skills necessary to enter gainful employment in the area of construction masonry.

Program Highlights:

- Construct a variety of brick, block, stone, and concrete projects in the community
- Design and create long-lasting residential and commercial structures
- Use the same techniques and equipment as professional masons

The Program Focuses on the Following State Approved Courses:

- Construction Technology – Core and Sustainable Construction
- Fundamentals of Architecture and Construction
- Masonry – Brick and Block
- Concrete and Residential Masonry

COST-FREE COLLEGE CREDIT OPPORTUNITIES
