## **COMPUTER NETWORK AND INTERNET ACCEPTABLE USE POLICY AND AGREEMENT**

The Penta Career Center is pleased to make available access to interconnected computer systems within the Career Center and its satellite locations and to the internet for the purpose of productivity, research, curriculum delivery, professional development activities and electronic storage in the pursuit of learning. The Penta Career Center Board of Education has policies which govern the access and use of computer and network systems. This Acceptable Use Policy is a guideline for use and a contractual agreement between the end user of said systems and the Board of Education. All end users of said systems must take responsibility for appropriate and lawful use of their access. Misuse under the guidelines of this document may result in loss of privilege to use computer systems, the network and/or internet access and may result in disciplinary action under Board Policy and/or the governing code of conduct.

Upon reviewing, signing and returning this Policy and Agreement, each end user will be given an opportunity to enjoy access to computer and network systems at school and is agreeing to follow this agreement's guidelines and Board Policy. Anyone under 18 years of age must have his or her parent or guardian read and sign the policy. The Penta Career Center cannot provide access to anyone who fails to sign and submit the policy to the school as directed with accompanying signature of a parent or guardian if required.

If you have questions about the guidelines below, please contact the Penta Technology Department.
