

MEDICAL TECHNOLOGIES ACADEMY

2024-2025

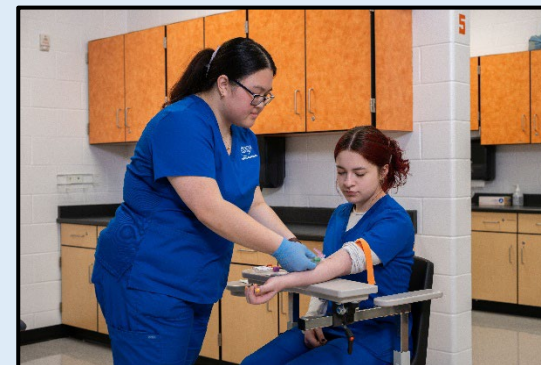

Medical Technologies Academy students learn skills in patient care, diagnostic procedures, medical office procedures, and emergency care. Upon successful completion of this program, students are prepared for careers in the health care industry. Students are also prepared to further their education for certification or degrees in areas such as nursing, medical assisting, and phlebotomy.

Program Highlights:

- Work with health care experts to provide quality patient care
- Explore a wide range of career options in nursing, nursing assistant, phlebotomy, home health aide, dietary aide, and other health care professions
- Practice a variety of health care processes, techniques, and diagnostic procedures in a professional environment

The Program Focuses on the Following State Approved Courses:

- Principles of Allied Health
- Nutrition and Wellness
- Medical Terminology
- Patient Centered Care
