PENTA CAREER CENTER
9301 Buck Road · Perrysburg, OH 43551 · P 419.666.1120 · F 419.666.6049

Penta Career Center has partnered with All Phase Electric, a local electrical supply company located in Toledo, Ohio, to offer students a quality tool program at a special discounted price.

We strongly encourage students to invest in quality tools that will last throughout their training and into their professional careers as electricians. The tools included in this program are from Klein Tools, an industry-leading brand known for producing durable, reliable tools backed by an excellent warranty program.

All of the tools listed below are available as part of a complete kit at special kit pricing. We understand that some families may already own some of the required electrical tools. If you only need to purchase specific items from the list, please email Blake Leffel at All Phase Electric at bleffel@apetoledo.com for pricing on individual tools.

Klein Tool Kit – Price $305.77 for all tools listed below

Also needed is the Klein Tools Heavy Duty Embossed Leather Tool Belt (will need to choose size when ordering) – Price $26.55

If you are interested in purchasing these tools, you will need to submit the order form online through the link below. Once you submit your form, an order acknowledgment will be emailed to you with your total so that payment can be applied. A secure payment link will also be emailed so that payment can be processed via credit card. Your tools will NOT be ordered until you pay for them. The products are not in the store and will need to be ordered. Orders will need to be in no later than Friday, August 21, 2026, to ensure timely delivery of the tools. All Phase Electric will deliver the tools to Penta Career Center and we will give them to your student in class.
