

Dear Penta Career Center Community,

This notice is to inform you of important changes that will be forthcoming in the school campus policy. Due to construction projects that are scheduled to begin in the **fall 2024, walking and other activities on the school campus will be prohibited** to the public during the hours of 6:30 AM to 5:00 PM.

Projects impacting campus access include:

- Work on the Lime City Road Bridge – construction vehicles will be using Penta's existing egress to Lime City Road, as well as working along the our "ring road".
- Construction of new lab space adjacent to the Auto-Tech labs with lay down areas along the North West area of the "ring road".
- Construction of new commons expansion and meeting space near the school pond with lay down areas along the Southeast area of the "ring road".

We understand that many people enjoy walking and biking around the "ring road". However, we ask for your cooperation and understanding in this matter. The work of the construction crews is essential for improving the school facilities and creating a better learning environment for our students. We appreciate your support and patience as we work to complete these projects.

We will start the academic school year with these restrictions and they will remain in place for the duration of the projects. The approximate time-line is August 2024 through November 2025. More exact dates will be posted as we get closer to breaking ground.

I thank you for support and interest in our school community.

Sincerely,

Edward Ewers
Superintendent
