

DIGITAL ARTS & DESIGN

2022-2023

Digital Arts & Design provides students with skills that would open many doors in creative and artistic career paths like graphic design, illustration, photography, web design and much more. Students will develop a competitive portfolio that covers most areas of the graphic communication industry. This portfolio can be used to future their education or go directly into one of the many career pathways.

Program Highlights:

- Create graphic design using advanced Adobe software applications
- Develop, design and produce promotional materials using traditional and digital art to exceed client expectations
- Develop skills in photography using professional DSLR cameras and edit/manipulate photos

The Program Focuses on the Following State Approved Courses:

- Advertising and Communication
- Digital Print Design
- Digital Media Art
- Digital Image Editing
