

HORTICULTURE-LANDSCAPING & OUTDOOR SYSTEMS

Level 1 2021-2022

Horticulture – Landscaping & Outdoor Systems (Level 1) is designed for students who enjoy the outdoors and like to work with their hands. Students are instructed in basic landscape design, landscape construction and maintenance, retail and marketing, project pricing and estimating, plant identification and usage, arboriculture, and parks and recreation management.

Program Highlights:

- Design, install and maintain creative natural living and recreational landscaping
- Work with parks and recreational professionals to manage public and private properties
- Provide excellent customer service while interpreting job requirements and completing client projects

The Program Focuses on the Following State Approved Courses:

- Urban Forestry
- Parks & Recreational Management
- Business Management for Agricultural and Environmental Systems
- Landscape Systems Management
